

PORTICO® SEAFOOD
Simply

FEATURES AND BENEFITS

Contains no added water or chemicals, which allows for better searing and results in minimal shrinkage.

Bloodlines fully removed, leaving the fillet with a clean white color and no fishy aftertaste.

Each fillet is individually quick frozen (IQF) and coated in a protective ice glaze to prevent freezer burn, preserve freshness and facilitate the ease of portioning.

True net weight. Ice glaze does not count toward the net weight of the product, which delivers maximum yield and value to the operator.

A half-ounce sizing variance provides consistency, optimal portion control and increased profits. Compare to the industry standard of an one-ounce variance.

CULINARY APPLICATIONS

Tempura Battered Pangasius: Tender bite-sized pieces of pangasius fried golden brown in Jade Mountain tempura batter and laced with teriyaki sauce.

Bacon-Wrapped Pangasius: Pangasius fillets wrapped in Sysco Classic Cherrywood Bacon, lightly basted with BBQ sauce and served with fresh vegetables.
